

Discrimination and Financial Health Among Working Women

67% of working women age 18-plus reported experiencing discrimination at work that impacted their earnings potential.

Among working women 18-plus:

-  have been **overlooked, disrespected, or devalued** by a customer or colleague while at work
-  have been **passed over for a raise, promotion, or chance to get ahead** at work
-  have been **told to behave a certain way** at work
-  have been **excluded from projects or meetings** at work that would have helped them advance in their career
-  have been **unfairly fired from a job or not been hired for a job** due to an unfair hiring practice

62% of working women age 18-plus have reported experiencing age discrimination.

More working women age 50-plus have experienced age discrimination than working women ages 18-49.
